Dear Human Resources,

I respectfully submit this letter and resume for a position at your company. As any organization, I am sure you are seeking hard working professionals to be part of your team. I am confident that my skills and my passion for technology are a perfect match for this position. I am a recent graduate from Florida International University and a graduate of Miami Dade College. I majored in Information Technology with concentration in software development. This enables me to any job related to hardware or software.

I have been trained in various programming languages such as Java, PHP and SQL, as well as having maintaining various computers in FIU hardware labs. After reading your job description from your site, I felt that my passion and experience are best matched with this job.

I would welcome the opportunity to further discuss this position with you. Please contact me through email or phone at any time. I have enclosed my resume for your review, and I look forward to hearing from you.

Sincerely,

Samuel Etienne
